DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 and 15-20 drawn to a method of treatment comprising non-cancerous diseases of breathing disorders, asthma, impotence, NAD⁺ binding, atherosclerosis, restenosis, inflammatory liver disease, heart failure, angina, and hypertension, classified in class 424, subclass 43.
- II. Claims 8-14, drawn to a method of treatment comprising cancerous diseases of pathologically proliferating cells, bacteria, fungi, mammalian cells, cancer cells, breast cancer, testicular cancer, restenosis effecting, prostate cancer, and Hogkin's, classified in class 514, subclass 18.

The inventions are distinct, each from the other because:

Inventions of group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I has separate utility in non-cancer treatments. Invention of group II has separate utility in cancer treatments. See MPEP § 806.05(d).

Art Unit: 1653

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

A telephone call was made to Eric Spector on 8/13/02, resulting in an oral election of group II, claims 8-14, with traverse on 8/15/02.

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy Teller whose telephone number is (703)305-4243. The examiner can normally be reached on Monday-Friday from 6:30 am to 3:00 pm
